Bay To YHE PUBLIC.-From the 1st day of July, 1851, the postage on the Daily American Telegraph, Washington city, D. C., will be, per quarter in advance, as follows:— Fifty miles or under, 25 cents; over fifty and not over three hundred, 50 cents; over three hundred and not ex-ceeding one thousand, 75 cents, &c. Any person wishing to be served for three months after the above date need and a silver quarter in a small letter—postage paid, of course; or five dollars for a year. The Tolegraph is independent in politics, polite, moral, agrecable, and familiar, prompt in furnishing the news, and a terror to all evil

doers.

Editors of weekly and other papers desirous to exchange with us can pay the difference in the prices of subscription by giving a few insertions to the whole of WASHINGTON, May 27, 1851.

DEPARTMENT CLERKS .- We understand the Secretary of War has called upon the heads of each Bureau in his Department to prepare a report, on the subject of salaries and the classification of Government clerks, in answer to the resolution of Mr. Hunter, passed at the extra session of the Senate.

We purpose making some extended remarks upon the subjects of clerks, clerkships, salaries, the appointing power, and those who exercise it. In elections there may be abuses, but in appointments there can hardly be the absence of it. We have some historical reminiscences and some modern instances, which we shall use in their proper places, and among them are facts to which we have given credence with more reluctance than to any revelations that ever came to our knowledge.

We do not mean to be the chroniclers of petty scandal, nor of the traduction of private character; but we shall be the publishers of truths that the American people have a right to know. We are believers in the integrity of the people, and the advocates of the exercise of political power by them; and why they should designate the men who are to fill the offices under the Government, is the thing we wish to make apparent. There can be a great deal more electing done by the people than many are willing to believe. In the mean time, however, the present inequalities in salaries and duties are worthy serious inquiry.

WASHINGTON BIBLE SOCIETY .- The meeting of this Society last night at the F street Presbyterian church was an interesting one. It is not surprising that the Bible—the minutest portions of which every Sabbath form subjects of profound book, form as a whole the ground-work of the most eloquent remarks.

The proceedings were opened by an address from Mr. St. Clair Clark, the President, who gave a brief account of the formation of the parent Bible Society. He stated that he was a member of the first convention which formed that Society, which has been productive of a vast amount of good. The 19th Psalm was read by the Rev. G. P. Hill, and prayer offered by the Rev. Wm. S. Hamilton. The annual report was read by the Secretary, M. H. Miller, esq. Mr. Lawrence gave striking and good reasons why the Society should place the Bible in the way of the traveller at our hotels, and in our steamboats and cars.

The Rev. Thomas H. Stockton, in his elo-God; it would stand, when the material uni- to the occasion.

The Rev. Dr. Junkin's remarks were truly forcible. He confined himself principally to the view of the Bible as the great fountain of liberty and good government, especially of republican government. He showed, in a few condensed remarks, that sin was the cause of despotism; that the precepts of the Bible acted out, "in doing to others as we would they should do to us," constituted true freedom. The Bible first made individuals free, and then nations. He showed that freedom and the Bible in the vernacular tongue must go hand-in-hand: that those countries only were, or had been, or could remain free, where the people had the Bible; that to withhold the Bible from the people was to take away "the very sword of the spirit;" that the people had a right to go to the fountain head for the waters of life and liberty, and that no man had the right to close up this fountain, and only give them the diluted and fetid leakings from ruined and decayed aqueducts. He held up a fragment of one of the Bibles while he was no believer in relics, that fragment was to him full of interesting thought. It proclaimed what they brought, and why they came to this wilderness-" for freedom to worship God"-driven by the persecutions of those who professed to be guided by the Bible; and he warned his hearers that Protestants should be awake to the fact, that the Bible and liberty were inseparable.

On the conclusion of the address by the Rev Dr. Junkin, an appropriate anthem was sung by the choir, during which a collection of one the Society.

A resolution was passed, ordering the publication of the report, which will show the operations and success of the Society.

In this connexion we have two other little that the intention to drink, to which the introduction was to be preliminary, was only premised by certain witnesses, and the presumption may not be correct as regards some of the company. We have been well assured that, although Mr. Hooe is a fallible gentleman, drinking is not prominent among his failings, and he says he did not meditate such an act then and there. In the second place, it is said we were ambiguous in stating who had "skeeted" from the limbs of the law. That was Mr. Dallas, for a surety; but, as Guy Goodluck, esq., says, he 'was excited."

All parties, we learn, promise to be better boys in future; so let us let by-gones be bygones, and end the chapter here.

REDUCTION OF FARE.—On the Baltimore and Ohio Railroad, a reduction has been made in the price of through tickets to Pittsburg and

PROMOTIONS AND APPOINTMENT.-We learn that Mr. J. B. Erwin, of N. C., has been promoted to a \$1200 clerkship in the Bureau of Provisions and Clothing, in place of Mr. Fillebrown, promoted to the chief clerkship; and that Mr. H. H. Helfer, of N. C., has been appointed a clerk in the Navy Department proper, in place of Erwin, promoted.

ARRIVALS .- We observe among the names on the books at Gadsby's Hotel this morning those of Senator Yulee, of Florida, and Professor Means, of Oxford, Georgia. The latter gentleman is on his way to Europe.

A LIVE YANKEE .- Horace Greeley, of the New York Tribune, is one of the Judges of the Royal Commission for the exhibition of the World's Fair. The commission met at Hyde Park on the 8th of May. Among those present, says the London Times, were the Earl of Jersey, Baron Dupin, Sir David Brewster, Lord Wharn-Baron Dupin, Sir David Brewster, Lord Wharn-cliffe, Hon. Horace Greeley, Lord De Mauley, tary scheme. The defeat of the Kaffirs by Col. Duke of Argyle, Viscount Canning, Count Von Harrack, Sir James Anderson, Col. Anson, &c. That there was in the whole company a shrewder or better informed man we think very doubtful; but that there never went to England a more extreme point of depression is past, and busigenuine, "hull-souled," lank-sided specimen of Yankeedom, we are right sure. Horace will thought and eloquent disquisitions-should, as not amaze his aristocratic and polite fellowa book, or rather, as Dr. Junkin remarked, the judges more by his stick-whittling than by his accurate knowledge and superior abilities.

Mount Vesuvius .- The scheme of extinguishing Vesuvius by a canal from the sea gains favor in this country, and some of the editors think it an excellent project, as, if the sea does not put out Vesuvius, Vesuvius will warm the sea, and then boiled fish will be cheap. We never thought of the fish, not regarding the proposition as of that kind; but it did occur to as that if Vesuvius should get the better of the aqueous element, there would be a fine deposite of salt.

EXCITEMENT IN SCHOOL .- Miss Virginia Walker, daughter of Mr. Chas. Walker, was yesterday afternoon seized with convulsions, at the public school taught by Miss King, on F street, and for many minutes was supposed to be in a dying condition. One of the Trustees happened to be present, who, with Miss King, did every thing possible for the relief of the child, until the arrival of Dr. Eliot. We mention the circumstance because of some foolish and extravagant report respecting her illness. She is to-day quite recovered.

ARRIVAL OF THE CANADA.

HALIFAX, May 26—12 p. m. The steamer Canada arrived here at 9 p. m., with fifty-three passengers, four of whom are for Boston and ten for Halifax. She experienced very rough weather the three first days out. The news generally is unimportant. Crowds continued to press into the Crystal Pal-

ace. The Queen makes a daily private visit. The receipts of one day had been as high as \$3,000. Season tickets still sell at first prices. In the House of Commons, after some discussion, the further consideration of the Ecclesiastical Titles bill, by consent of the Premier, was postponed to the 19th. The Liverpool Journal "We believe we are in a condition to state that in a week or two the ministry will resign and Lord Stanley will accept office. We are, at all events, quite certain that this occurrence is expected by all the government offi-cials to follow immediately on Mr. Baylie's Ceylon motion, upon which it is calculated the ministry will be left in a minority. Lord Stanley is now prepared to form an administration.

FRANCE.—Gen. Cavaignac is now prominently put forward as a candidate for the Presidency, and receives the support of M. Emile Girardin. The leading journals seem to favor his views. Great preparations are being made by parties for the approaching election. Gen. Durreen, the government candidate, is elected for the department of Lannes. The Journal de Messages has been seized for announcing that fourteen regiments have been ordered to Paris, and reiterating the statement as correct.

GERMANY.—Germany is quiet. Italy gives signs of discontent. The evacuathe Danubian principalities was to be completed on the 19th instant.

Advices from the Cape of Good Hope to the 4th of April have been received. The intelligence is most unsatisfactory. Sir Henry Smith had been compelled to fall back upon King Williamstown, his force being inadequate to merset only incited the various tribes to fresh hostilities.

Messenger furnish the following account of the ing our national birth-day. The place selected robberies perpetrated by the late Postmaster of for the occasion is a beautiful grove, upon the was also a factor : Important Default.—Our citizens have been

greatly astonished by the painful developments of the last week. It appears that the firm of Conner & Taylor, warehouse men, has failed for large amount, and that their liabilities are mainly on account of cotton sold for planters without orders. The amount of the deficit has not yet been ascertained, but has been variously estimated at from 800 to 1,200 bales—valued at from \$40,000 to \$60,000. In addition to the above, it appears that Captain Conner is also a defaulter in the post office to the amount of from \$4,000 to \$6,000. Captain Conner had always been one of the most popular and highly eseemed men in the city; and had resided for near a quarter of a century. What has be-come of so large an amount of money remains a mystery. It is rumored that it has all been lost in cotton speculations, in which others, in distant cities, were concerned; that the other parties have adroitly managed to slip out of the noose, leaving the planters to pocket the loss and the Macon partners the dishonor. If this be true, we hope the whole matter may be exposed by a legal investigation. It is said that Captain Conner has left for parts unknown.

CENTRAL HEAT OF THE EARTH.-Mr. Macadam supposes the earth to be a crust twenty-five miles thick, resting on a red-hot round sea at the centre of our planet, in the same way that a spheroid of water lies on a red-hot plate. the hot fluid mass like a sphere with an atmosphere of vaporized metal between the two. This arrangement, he imagines, will communi-cate to the habitation of mankind an agreeable warmth just adapted to his nature.

"Not one Jew!"-Patriotism.-It is said that not one Jew, during the Revolutionary war, took part against the Liberty party, and that the Jews have always taken the part of freedom against oppression.

To DEADEN THE SOUND OF AN ANVIL.-If a chain, about one foot long, formed of a few large links, is suspended to the small end of an anvil, it will destroy that sharp, thrilling noise produced by striking on it with the hammer: the vibrations of the anvil are extended to the chain, which absorbs them without producing any sound. This is good advice to anybody who has a blacksmith, or, worse yet, a coppersmith for a neighbor.

New York, May 27-2 p. m. Riot at Hoboken.

A dreadful riot occurred at Hoboken night. A party of Germans having a festival were attacked by a number of young men, when a disgraceful fight ensued, in which firearms were freely used. The Germans drove their assailants from the ground. The rowdies, reinforced by a party of Irish, renewed the contest; but, after a severe fight, in which many were injured, the Germans were again victorious. On their return to the ferry they were again attacked, when a fearful fight ensued, in which three or four were killed, and

many dangerously wounded. The New York police refused to assist in quelling the riot, and the sheriff's posse and two companies of military, from Jersey City, proceeded to the scene of action, and finally stopped the disturbance. Sixty arrests were made. At three o'clock this morning all was
